**Subject:** ENERGY STAR Application for 320 Summer Street (ID: 3555933)

Dear Barbara Oddo:

Thank you for applying for the ENERGY STAR for 320 Summer Street (ID: 3555933). We have reviewed your application, and we wanted to follow up on the issue below:

The electric meter on page 7 of your application, "Electric Grid Meter Retail," shows zero consumption for the entire application period. What loads are captured by this meter? Please provide an explanation for the unusual consumption, and let us know whether all of these entries are accurate as billed.

Please respond to this email by October 9, 2016 if you would like this property to be considered for the ENERGY STAR.

Thank you and we look forward to your response,

ENERGY STAR Certification Review Team

## **Response from applicant 9/12/16**

Dear ENERGY STAR Certification Review Team,

The account / meter is for a space that has always been, vacant. There are about two hanging lights in the space that are only "on" if the brokers of LPC staff go in which in infrequent.

I have added the above explanation to the notes section of the portfolio.

Best wishes,

Steve
